You will be connected to a Communications Assistant, who will relay the conversation in the strictest confidentiality, to the telephone number you specify.

Just dial 8 + 711 on your telephone.

IOWA STATE UNIVERSITY

Dear Friends of Iowa State University:

Happy Birthday, Iowa State!

In the 2007-2008 academic year, Iowa State University is celebrating its 150th birthday. Iowa State was established by the Iowa legislature on March 22, 1858, as the Iowa Agricultural College and Model Farm. Four years later, on September 11, 1862, Iowa became the first state in the nation to accept the terms of the Morrill Act establishing the nation's system of land-grant colleges and universities, and on March 29, 1864, the Iowa General Assembly awarded Iowa's land grant to this new agricultural college, making Iowa State one of the nation's first land-grant universities.

The people of Iowa should be extremely proud of this state's leadership in the land-grant movement, and of Iowa State University's leadership role in defining the land-grant mission. Iowa State is the first land-grant university to be coeducational from the day it opened. It's where women's suffrage leader Carrie Chapman Catt received her college degree, and where George Washington Carver earned his bachelor's and master's degrees, launching his incredible career as a plant scientist and educator. Iowa State is where the nation's extension service was born, and where the nation's "experiment station" approach to practical research in agriculture and engineering began. This new approach to research led to such important advancements as hybrid seed and ethanol for fuels, with Iowa State faculty playing lead roles, and the invention of the electronic digital computer at Iowa State in the 1930s by Professor John Atanasoff and graduate student Clifford Berry.

From these roots has developed one of the world's leading comprehensive educational and research universities. Our students come from every state and more than 100 other nations to study in a learning environment considered one of the best in the country. Our alumni are in key leadership positions in government, industry, research and academia around the world. We have some of the world's top faculty in the biological sciences, engineering, the physical and materials sciences, computer and information science, environmental science, food science and in such critical areas as biorenewable resources and sustainable agriculture. We also have award-winning programs in design, business and entrepreneurship, the humanities and education, and our faculty and students are at work all across the globe helping people build better lives and improve their environment.

We will be celebrating our sesquicentennial anniversary—our wonderful heritage and our very exciting future—throughout the 2007-2008 academic year, and we invite you to be a part of this celebration. I invite you to visit our special Sesquicentennial Web site at **www.iastate.edu/isu150** for a schedule of sesquicentennial events and information about celebration activities, projects and souvenirs. Please help us celebrate Iowa State University's 150th birthday and the beginning of our next 150 years.

Sincerely,
Gregory L. Geoffroy
President

Student Billing

Each month you will receive a statement on-line detailing charges and long distance calls. (One resident in each Schilletter and University Village apartment is billed for basic service.) The total will appear on your Accounts Receivable Statement, along with any other university charges for that month. This information is available at http://accessplus.iastate.edu/.

Charges must be paid monthly to avoid loss of service and incurring a $10.00 (non-refundable) reactivation charge.

Contact Information Technology Services, 195 Durham Center, 515-294-4000, if your code is lost or stolen!

You are responsible for all calls placed using your authorization code. Do not give this information to anyone!

NOTE: FRAUDULENT BILLING CAN LEAD TO PROSECUTION - It is illegal for a person to charge long distance calls to another person's calling card or authorization code without their permission. Persons placing such calls to avoid payment for service are subject to prosecution and if convicted are subject to imprisonment and/or fine.

Data Network Information

The Iowa State University data network serves all campus buildings including academic buildings, administrative buildings, and Residence Halls. Users have access to campus resources including the Library, college/departmental servers, and AccessPlus, as well as very high bandwidth Internet connectivity. Remote access to the campus network can be attained using a local Internet Service Provider (ISP) or through dial-up modems (PPP service). VPN service provides a secure path through a local ISP or wireless services to access protected campus resources.

Connecting to the Campus Network from the Residence Halls

Ethernet connections are active in all residence hall rooms and Frederiksen Court apartments.

To use Ethernet, you will need:
Ethernet Card (unless your computer has a built-in Ethernet connector). Ethernet cards and cords are available at Tech CYte, University Book Store, Memorial Union, or through computer dealers.

Assistance with configuring network settings is available through the Solution Center, 195 Durham Center, 515-294-4000.

Connecting to the Campus Network from Schilletter University Village (SUV)

DSL service is available in each Schilletter and University Village apartment. DSL is an always-on 20 Mbps asynchronous network connection. DSL uses the existing telephone wiring. It provides a connection directly to the campus LAN with full access to the Internet.

To use DSL, you will need the following:
Ethernet Card and Cable (unless your computer has a built-in Ethernet connector). Ethernet cards and cables are available at Tech CYte, University Book Store, Memorial Union, or through computer dealers. Items purchased through Tech CYte can be charged to your university account.

Assistance with configuring network settings is available through the Solution Center, 195 Durham Center, 515-294-4000.

NOTE
Lightning may damage equipment connected to a power source or a communications jack. Information Technology Services is not liable for damage caused by electrical storms. Surge protectors will not guarantee protection. We recommend that you disconnect both the power cord and communications cable during electrical storms.

Connecting to the Campus Network from Wireless

Wireless networking is a method of connecting a computer to the network using radio signals. There are two primary components involved in a wireless network: an access point and a wireless access card. The wireless access cards are similar to Ethernet cards, but with a built-in radio that communicates with the access points. They are most useful in mobile devices such as laptops and PDAs. The access point connects users to the campus network. It then transmits and receives radio signals in its immediate area to communicate with wireless access cards.

Visit Information Technology Services Web site, *http://www.it.iastate.edu* for an updated wireless map as well as locations listed by building and room.
Information Technology Services will continue to expand the wireless network on campus in public areas and classrooms. Please check the Web site frequently for updates.

Contact the Solution Center for wireless assistance and support by telephone at 515-294-4000, by e-mail at *solution@iastate.edu*, or in person in 195 Durham Center, 7:00 a.m. and 9:00 p.m. Monday through Thursday, 7:00 a.m. to 5:00 p.m. on Friday, or 10:00 a.m. to 7:00 p.m. on Sunday. On the Web, look for us at *http://www.it.iastate.edu/help/*.

PPP: Connecting to ISU from Off-Campus

Dial-up access to the campus computers and the Internet from your home computer is available through ISU PPP service.

To Establish PPP Service:
1.) Log into AccessPlus, *http://accessplus.iastate.edu/*
2.) Click on Telephone Services
3.) Select PPP Activation
4.) Submit Request
5.) Logout of AccessPlus

PPP Configuration and Software
Documentation for configuring ISU PPP on your computer is available at: *http://www.it.iastate.edu/pub/*.

PPP Modem Pool Numbers
There are two access numbers for the ISU PPP service:

Ames calling area	515-268-4565
Out of Ames	866-251-5488 (additional charges apply)

Costs and Additional Information
Detailed rate information and other important information can be found at: *http://www.it.iastate.edu*. Assistance is available from the Solution Center, 195 Durham Center, 515-294-4000.

Virtual Private Network (VPN)

A Virtual Private Network (VPN) provides authorized users secure access to the Iowa State University network when connecting from home or through another unsecured network (such as wireless). Because so many security threats to campus computer resources come in through the Internet connection, the University has blocked some services at the campus border. These services include Microsoft file and print sharing, Outlook/Exchange clients, and various connections known to be viruses/worms. When using the VPN server from off-campus, all services are available as if the user was directly on campus.

The following link will provide information on installing and using the VPN for each operating system: http://www.it.iastate.edu/pub/.

For more information, contact the Solution Center at 515-294-4000 or solution@iastate.edu.

Guest Access

Guest Access is a service provided by Information Technology Services. The service allows visitors access to the Internet using the ISU campus network. Visitors can browse the Web and check their e-mail.

Getting Started:

1.) Open a web browser. If the ISU NetReg page does not automatically appear, enter netreg.iastate.edu into the address bar and press Enter
2.) Select the specific event you are attending (if listed) and select "Register Here", or select "Guest Registration Here".
3.) Enter your local contact information and select "Next".
4.) Read the terms and select "I Agree".
5.) Reboot your computer when instructed to do so (approximately a one-minute wait) to complete your registration process.

Initial guest access is either 7 days or the length of the event (if selected from the pull down menu).

Assistance with Guest Access registration is available through the Solution Center, 195 Durham Center, 515-294-4000, by e-mail at *solution@iastate.edu,* or in person in 195 Durham Center.

The Solution Center

Do you have a question about computing at Iowa State? The Solution Center has an answer. We specialize in answers about getting connected to the network at ISU, which can be anything from requesting PPP service to getting help with site-licensed software and virus protection. A list of site-licensed software is available at *http://www.it.iastate.edu/downloads*. The Solution Center also assists with e-mail and passwords. The Solution Center offers handouts and advice if you want to set up your computer on your own, or you can make an appointment with the SNAP team.

Contact the Solution Center by telephone at 515-294-4000, by e-mail at *solution@iastate.edu,* or in person in 195 Durham Center. Hours are between 7:00 a.m. and 9:00 p.m. Monday through Thursday, 7:00 a.m. to 5:00 p.m. on Friday, or 10:00 a.m. to 7:00 p.m. on Sunday. On the Web, look for us at *http://www.it.iastate.edu/help/*.

SNAP Team - *(Getting Connected)*

The Student Network Access Project (SNAP) is here to assist students who want to get connected to the campus network. An assistant can go to your on-campus residence to help install an Ethernet card in your computer, configure the card, and help load the networking software. The team also has a drop-off service in the Solution Center, 195 Durham Center. You may leave your machine with the SNAP team and have the setup done there. Off-campus students can also drop off machines to have the computer and modem set up to connect to the campus network through the PPP dial-up service.

SNAP is funded by your student computer fee so there is no charge for standard service. Contact the SNAP team by telephone at 515-294-4000.

Student Computer Fee-Supported Services

Student computer fees support information technology initiatives including open computer labs, laptop computer checkout and wireless network access points on campus. Information below is current as of July, 2007 and is subject to change.

Resident Managers

The staff at SUV is always available to serve as a resource in the neighborhood. Seven Resident Managers live in the community. Your Resident Manager is responsible for welcoming residents, developing programs, mediating resident conflicts, distributing information, providing vacate information, and referring residents to appropriate services and resources. In addition, they provide a variety of equipment for residents to borrow: bike pump, garden tools, hoses, picture hangers, plungers, snow shovels, batteries for smoke detectors, jumper cables, and some outdoor game equipment.

Being involved is one the most important aspects of your college experience. It enables you to mature personally, socially, intellectually, and spiritually. Involvement enhances your opportunities for career development exposing you to various skills, which will help you when you graduate to find gainful employment. Giving your time and talents to an organization will not only help that group, it will make your college experience a valuable & enjoyable one.

If you are interested in one of the organizations listed in this section, go to the Student Activities Center online at http://www.sac.iastate.edu and click on GET INVOLVED. You will be given information about each organization and all of the various ways you can get involved in clubs, intramural sports, Spirit Squad, leadership opportunities, volunteer opportunities, and the many music ensembles we have at Iowa State University.

Student Alphabetical Listings

Information in the student section of the university campus directory is taken from data supplied by the students to the university prior to August 31, 2007. Students who do not wish to have directory information published must file notice in the Office of the Registrar within the first 10 calendar days after the beginning of the fall semester. The university assumes that failure on the student's part to specifically request withholding directory information indicates the student's approval for the disclosure.

Preparing for an Emergency Makes Sense.

The likelihood that you and your family will survive a house fire depends as much on having a working smoke detector and an exit strategy, as on a well-trained fire department. The same is true for surviving a terrorist attack or other emergency. We must have the tools and plans in place to make it on our own, at least for a period of time, no matter where we are when disaster strikes. Just like having a working smoke detector, preparing for the unexpected makes sense. **Get ready now.**

1 Get a Kit
of Emergency Supplies.

Be prepared to improvise and use what you have on hand to make it on your own for **at least three days**, maybe longer. While there are many things that might make you more comfortable, think first about fresh water, food and clean air.

Consider two kits. In one, put everything you will need to stay where you are and make it on your own. The other should be a lightweight, smaller version you can take with you if you have to get away.

You'll need a gallon of **water** per person per day for drinking and sanitation. Include in the kits a three day supply of non-perishable **foods** that are easy to store and prepare such as protein bars, dried fruit or canned foods. If you live in a cold weather climate, include **warm clothes** and a sleeping bag for each member of the family.

Some potential terrorist attacks could send tiny microscopic "junk" into the air. Many of these materials can only hurt you if they get into your body, so think about creating a barrier between yourself and any contamination. It's smart to have something for each member of the family that covers **their mouth and nose**, such as two to three layers of a cotton t-shirt, handkerchief or towel or **filter masks**, readily available in hardware stores. It is very important that the mask or other material fit your face snugly so that most of the air you breathe comes through the mask, not around it. Do whatever you can to make the best fit possible for children.

Also, include **duct tape and heavyweight garbage bags or plastic sheeting** that can be used to seal windows and doors if you need to create a barrier between yourself and any potential contamination outside.

2 Make a Plan
For What You Will Do in an Emergency.

Plan in advance what you will do in an emergency. Be prepared to assess the situation. Use common sense and whatever you have on hand to take care of yourself and your loved ones.

Develop a Family Communications Plan.
Your family may not be together when disaster strikes, so plan how you will contact one another and review what you will do in different situations. **Consider a plan where each family member calls, or e-mails, the same friend or relative in the event of an emergency.** It may be easier to make a long-distance phone call than to call across town, so an **out-of-town contact** may be in a better position to communicate among separated family members. Be sure each person knows the phone number and has coins or a prepaid phone card to call the emergency contact. You may have trouble getting through, or the phone system may be down altogether, but be patient.

Depending on your circumstances and the nature of the attack, the first important decision is whether you stay put or get away. You should understand and plan for both possibilities. Use common sense and the information you are learning here to determine if there is immediate danger. **Watch television and listen to the radio for official instructions as they become available.**

Create a Plan to Shelter-in-Place.
There are circumstances when staying put and creating a barrier between yourself and potentially contaminated air outside, a process known as sheltering-in-place and sealing the room can be a matter of survival. **If you see large amounts of debris in the air, or if local authorities say the air is badly contaminated, you may want to shelter-in-place and seal the room. Consider precutting plastic sheeting to seal windows, doors and air vents.** Each piece should be several inches larger than the space you want to cover so that you can duct tape it flat against the wall. Label each piece with the location of where it fits.

Use all available information to assess the situation. If you see large amounts of debris in the air, or if local authorities say the air is badly contaminated, you may want to shelter-in-place. Quickly bring your family and pets inside, lock doors, and close windows, air vents and fireplace dampers. Immediately turn off air conditioning, forced air heating systems, exhaust fans and clothes dryers. Take your emergency supplies and go into the room you have designated. Seal all windows, doors and vents. Understand that sealing the room is a temporary measure to create a barrier between you and contaminated air. Watch TV, listen to the radio or check the Internet for instructions.

Create a Plan to Get Away.
Plan in advance how you will assemble your family and anticipate where you will go. **Choose several destinations in different directions** so you have options in an emergency.

If you have a car, keep at least a half tank of gas in it at all times. Become familiar with alternate routes as well as other means of transportation out of your area. If you do not have a car, plan how you will leave if you have to. Take your emergency supply kit, unless you have reason to believe it is contaminated and lock the door behind you. Take pets with you if you are told to evacuate, however, if you are going to a public shelter, keep in mind they may not be allowed inside. If you believe the air may be contaminated, drive with your windows and vents closed and keep the air conditioning and heater turned off. Listen to the radio for instructions.

Know Emergency Plans at School and Work.
Think about the places where your family spends time: school, work and other places your family frequents. Talk to your children's schools and your employer about emergency plans. Find out how they will communicate with families during an emergency. If you are an employer, be sure you have an emergency preparedness plan. Review and practice it with your employees. A community working together during an emergency also makes sense.
Talk to your neighbors about how you can work together.

3 Be Informed
About What Might Happen.

Some of the things you can do to prepare for the unexpected, such as assembling a supply kit and developing a family communications plan, are the same for both a natural or man-made emergency. However there are significant differences among potential terrorist threats, such as biological, chemical, explosive, nuclear and radiological, which will impact the decisions you make and the actions you take. By beginning a process of learning about these specific threats, you are **preparing yourself** to react in an emergency. Go to **www.ready.gov** to learn more about potential terrorist threats and other emergencies or call 1-800-BE-READY (1-800-237-3239) for a free brochure.

Be prepared to adapt this information to your personal circumstances and make every effort to follow instructions received from authorities on the scene. With these simple preparations, you can be ready for the unexpected. **Get ready now.**

4 Get Involved
in Preparing Your Community.

After preparing yourself and your family for possible emergencies, take the next step and get involved in preparing your community. Join **Citizen Corps,** which actively involves citizens in making our communities and our nation safer, stronger and better prepared. We all have a role to play in keeping our hometowns secure from emergencies of all kinds. Citizen Corps works hard to help people prepare, train and volunteer in their communities. Go to **www.citizencorps.gov** for more information and to get involved.

Recommended Supplies to Include in a Basic Kit:

- ☐ **Water** one gallon per person per day, for drinking and sanitation
- ☐ **Food** at least a three-day supply of non-perishable food
- ☐ **Battery-powered radio** and **extra batteries**
- ☐ **Flashlight** and **extra batteries**
- ☐ **First Aid kit**
- ☐ **Whistle** to signal for help
- ☐ **Filter mask** or cotton t-shirt, to help filter the air
- ☐ **Moist towelettes** for sanitation
- ☐ **Wrench or pliers** to turn off utilities
- ☐ **Manual can opener** for food (if kit contains canned food)
- ☐ **Plastic sheeting and duct tape** to shelter-in-place
- ☐ **Garbage bags and plastic ties** for personal sanitation
- ☐ **Unique family needs**, such as daily prescription medications, infant formula or diapers, and important family documents

FRESHEST BREADS
My thick-sliced 7-grain whole wheat and authentic French breads are made from my own secret recipe using all-natural ingredients, then baked fresh right here in the store throughout the day, every day.

FINEST MEATS
I personally select the very best meats available. That means no pressed, formed, or filled meats on my sandwiches. Only juicy white turkey breast, choice roast beef, smoked Virginia ham, and real wood-smoked bacon.

FRESHEST VEGGIES
I use only the freshest, bestest veggies around. They're sliced daily in the store and never treated or bagged for use some other day. That means crisp, fresh lettuce, tomato, onion, sprouts, and cucumber.

BEST INGREDIENTS
The world's greatest gourmet sandwiches call for the world's greatest ingredients. So I only use real Hellmann's mayonnaise, Grey Poupon mustard, and my homemade red wine vinaigrette and chunky avocado spread.

GOURMET SUB SANDWICHES
On homemade fresh-baked French bread.

#1 PEPE
Ham, provolone, lettuce, tomato, & mayo.

#2 BIG JOHN
Roast beef, lettuce, tomato, & mayo.

#3 SORRY CHUCKIE

#6 VEGETARIAN
Provolone, chunky avocado, cucumber, sprouts, lettuce, tomato, & mayo.

J.J.B.L.T.
Bacon, lettuce, tomato, & mayo.

PLAIN SLIMS™
Same fresh-baked French bread & meat as my premium gourmet sub sandwiches, but no veggies or sauce!

SLIM 1 *Ham & cheese*
SLIM 2 *Roast beef*
SLIM 3 *Tuna salad*
SLIM 4 *Turkey breast*
SLIM 5 *Salami, capicola, cheese*
SLIM 6 *Double provolone*

THE J.J. GARGANTUAN™
It's monstrous! Genoa salami, capicola, smoked ham, roast beef, turkey breast, provolone, lettuce, tomato, onion, mayo, & Italian dressing on fresh-baked French bread.

Here today...

But what about tomorrow? While hundreds of millions of Americans are enjoying the wonders of our national parks each year, the future of the very things they're coming to see is at risk.

For example, although the Mexican black bear population has been slowly recovering at Big Bend National Park, their ongoing survival is threatened.

Americans for National Parks is a coalition working to preserve these national treasures, and all the priceless experiences they provide. Find out how you can help at **www.americansfornationalparks.org.**

How would you feel if next semester's tuition, books and rent were already paid for?

This internship will make you rich... And you'll earn some money too.

University Directories, the Nation's Largest Publisher of Campus Telephone Directories, is seeking top-notch students to sell yellow page advertising for Universities across the Nation during the summer of 2008. This is a full-time, paid summer internship, open to freshmen, sophomores, juniors, seniors and graduate students who are not in summer school. Interns attend a week-long training seminar on the campus of The University of North Carolina at Chapel Hill. Transportation and accommodations will be provided during training. All interested students should call 1-800-743-5556 to find out when our recruiter will be interviewing on your campus. Visit our website at www.universitydirectories.com for more information about our program.

FRESHEST BREADS
My thick-sliced 7-grain whole wheat and authentic French breads are made from my own secret recipe using all-natural ingredients, then baked fresh right here in the store throughout the day, every day.

FINEST MEATS
I personally select the very best meats available. That means no pressed, formed, or filled meats on my sandwiches. Only juicy white turkey breast, choice roast beef, smoked Virginia ham, and real wood-smoked bacon.

FRESHEST VEGGIES
I use only the freshest, bestest veggies around. They're sliced daily in the store and never treated or bagged for use some other day. That means crisp, fresh lettuce, tomato, onion, sprouts, and cucumber.

BEST INGREDIENTS
The world's greatest gourmet sandwiches call for the world's greatest ingredients. So I only use real Hellmann's mayonnaise, Grey Poupon mustard, and my homemade red wine vinaigrette and chunky avocado spread.

GOURMET SUB SANDWICHES
On homemade fresh-baked French bread.

#1 PEPE
Ham, provolone, lettuce, tomato, & mayo.

SLIM 1 *Ham & cheese*
SLIM 2 *Roast beef*
SLIM 3 *Tuna salad*
SLIM 4 *Turkey breast*
SLIM 5 *Salami, capicola, cheese*
SLIM 6 *Double provolone*

THE J.J. GARGANTUAN™
It's monstrous! Genoa salami, capicola, smoked ham, roast beef, turkey breast, provolone, lettuce, tomato, onion, mayo, & Italian dressing on fresh-baked French bread.

PARTY? MEETING? TRY MY CRAVEWORTHY CATERING!
